Security Doors & Screens

Excellent Peace of mind protection
providing Security for your home
and family!

SecureGrille

Affordable home security for peace of mind

SecureGrille

SecureGrille aluminium Security Grille Doors and Window Screens

The **SecureGrille** security system provides exceptional protection at an affordable price. Manufactured using an extra heavy duty aluminium frame with contoured face for improved strength and added style. The receiving channel is extra deep for additional security. All doors include a 'triple' locking system as standard, along with colour matching handles and fittings. SecureGrille security doors and security window screens are available with fibreglass flywire as standard or upgrade to midgee flywire, heavy duty flywire or restricted vision mesh. The **SecureGrille** system can be used with any approved security grille design and can be manufactured for all custom made applications.

Protect the most important things in your home

PROMESH

Stainless Steel Security Mesh Doors and Window Screens

Our PROMESH security doors make you feel like you have the security of a fortress without compromising the warmth and comfort of your home.

All of our doors are constructed using our unique patented Hook System. Manufacture involves a 60 tonne hydraulic press forming a fold back portion along all sides of the mesh. The mesh grips within the recess of its frame, is locked under tension and cannot be removed. Without the use of screws or rivets, this also gives a very neat and well finished appearance.

The 0.9mm 304 grade high tensile stainless steel woven mesh is coated using anti-fade high quality black powder coating. The mesh has been pre-treated to prevent corrosion and tested for strength to provide optimal performance.

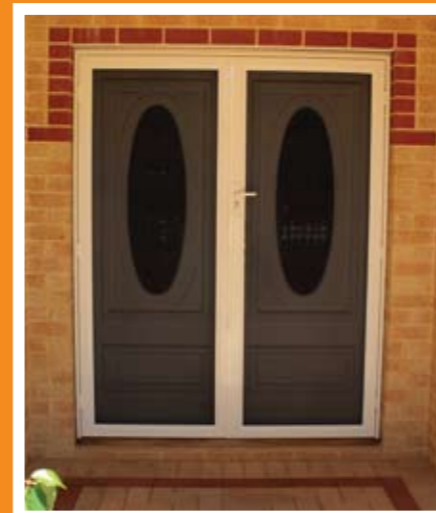

PROMESH Security Hinged Doors

- Patented 'Hook' method of manufacture
- High tensile stainless steel woven mesh
- Triple beak locking system
- Heavy duty door closer
- 3 x security hinges
- Reduces UV rays
- Frames available in a wide range of colours
- Custom built to your requirements
- Available in multi door set up

Australian Standards tested and passed by NATA Accredited Laboratory

- ✓ AS5041 Knife Shear Testing
- ✓ AS5039/41 Impact Test
- ✓ AS5039/41 Pull Test
- ✓ AS5039/41 Lock and Hinge Lever Test
- ✓ AS1170 Cyclone Debris Test A, B, C and D*
- ✓ Salt Spray Test (1000 hours)
- ✓ Window Energy Rating

*Test D passed using commercial manufacturing methods

Decorative Cast Panels

Our PROMESH Decorative security doors make you feel like you have the security of a fortress without compromising the warmth and comfort of your home. Many homes include a decorative timber door as a feature of the front of the house. In the past it has been difficult to offer a Decorative cast panel door that is also a true security door due to the open nature of cast aluminium panels. Decorative cast panel doors are available as a Barrier or PROMESH style. All of our PROMESH Decorative doors are constructed using our unique patented Hook System. Manufacture involves a 60 tonne hydraulic press forming a fold back portion along all sides of the mesh. The mesh grips within the recess of its frame, is locked under tension & cannot be removed.

Decorative cast panel doors are powder coated in a variety of colours at no extra cost. On PROMESH Decorative style doors the 0.9mm 304 grade high tensile stainless steel woven mesh is coated using anti-fade high quality black powder coating which provides better reflectivity and does not spoil your view.

- All cast panel doors are available as a Barrier or PROMESH style
- Heavy duty aluminium frame • Powder coated in any colour at no extra cost
- Many styles to choose from • Custom built to your requirements
